Journal of Insurance and Financial Management

Journal of Insurance and Financial Management publishes original papers, review papers, case studies, empirical research, technical notes, and book reviews. Journal of Insurance and Financial Management aims to publish work in the theory or practice that helps managers in various industries in the fields of Insurance, Banking and Finance, Financial Management, Islamic Banking and Finance, Risk Management, Economic, International Trade, Accounting, Business and Management. The intent of the editors is to consolidate Journal of Insurance and Financial Management as the premier vehicle for publishing valuable empirical and theoretical studies. Journal of Insurance and Financial Management prefers studies that take global and regional perspectives and critically assess various policies in the field of insurance, finance, and financial management. We welcome authors to significantly provide global and regional implications, and have high relevance and impact in a wide range of topics related to the scope of journal. To avoid unnecessary delays, a paper may be returned to the author before full review if the editors determine that it is not suitable for the journal. This decision is made in the interest of the author to avoid loss of valuable time. The Publication Frequency of Journal of Insurance and Financial Management is 4 issues per year. All finalized manuscripts are immediately available in advance.

European Journal of Economic and Financial Research

European Journal of Economic and Financial Research (2501-9430) is an international open access peer-reviewed periodical focused on publication of theoretical and empirical research articles in economics and finance and related fields, such as decision disciplines, marketing, management and accounting. Its main emphasis is on experimental and practical research concentrating on strategy, consequence and applicability of the conclusions. European Journal of Economic and Financial Research is published quarterly on-line in English, Spanish, Portuguese and Italian. Research papers accepted: articles, communications, intervention studies, study cases, book reviews, commentaries, short reports, etc. Printed copies of the journal are available on request. The main objective of this academic publication is to create an exchange platform between researchers, teachers and scholars that study, teach, learn or are connected to the educational or educational associated disciplines. Our aim is to build and maintain a mutually beneficial and long-term bidirectional informational dialogue among our authors and beneficiaries of the published research. Its principal scope is to disseminate the latest research findings and scientific advances in the educational field of study, exploring traditional and modern tendencies, observing social and cultural effects and investigating interdisciplinary methodologies. We invite our collaborators to actively participate with their latest scientific research, with their theoretical and practical experience at the development of this informational platform as a novel tool for the advancement of educational science. Our publication provides an active
